PROFESSIONAL SUMMARY

AI Data Scientist and SaaS Software Developer with a Master's in Big Data Technologies. Specializing in Time Series Forecasting, Generative AI (LLMs, RAG), and Cloud Architectures (AWS). Proven track record in developing predictive sales models and deploying scalable SaaS solutions. Bilingual professional combining technical expertise with creative problem-solving skills.

TECHNICAL CORE COMPETENCIES

AI & MACHINE LEARNING

- Generative AI, LLMs, RAG, LangChain
- Time Series Forecasting & Predictive Modeling
- NLP, OCR, Computer Vision (Hugging Face)
- Scikit-learn, Deep Learning Frameworks

PROGRAMMING & DATA

- **Python (Advanced)**, R, Java
- SQL, HQL, NoSQL (MongoDB)
- PostgreSQL, Redshift (Data Warehousing)
- ETL Pipelines & Data Processing

CLOUD & DEVOPS

- **AWS**(S3, Lambda, Redshift)
- Docker & Containerization
- Git (Version Control) & CI/CD
- SaaS Architecture Design

LANGUAGES & SOFT SKILLS

- Spanish (Native), English (C1), French (B2)
- Creative Problem Solving
- Agile Methodologies

PROFESSIONAL EXPERIENCE

AI Data Scientist | Aily Labs — Apr 2024 – Present

- Architected Time Series Forecasting models for Sales/Cashflow, driving financial strategy.
- Developed high-performance SaaS solutions on AWS (Postgres/Redshift), ensuring scalability.
- Designed GenAI workflows using LangChain, MCP, and RAG architectures.
- Managed end-to-end data pipelines and coordinated development via Git/Docker.

Data Scientist & Analyst | Seguros El Corte Inglés — Aug 2023 – Apr 2024

- Led data processing for zero-downtime database migration; ensured data integrity.
- Deployed predictive/classification models for the Real Estate sector.
- Implemented OCR & NLP algorithms to extract value from unstructured docs.

Data Scientist & Engineer | Valum — Oct 2022 – Jun 2023

- Engineered ML models for demand prediction and Customer Clustering.
- Automated commercial ETL processes, drastically reducing manual reporting time.

Tech Consultant Intern | SAS — Internship

- Performed advanced data analysis using SAS/SQL; built POC for banking alerts.

EDUCATION

Master in Big Data & Analytics | Comillas (ICAI) 2023

- Thesis: AI API (Hugging-Face) for advanced NLP.

B.Sc. Telecommunications Eng. | Carlos III Univ. 2022

- Bilingual Program. Project Grade: 9.1/10 (Django App).

Erasmus (Exchange) | Aalto University, Finland 2021

ADDITIONAL INFO

Musical Background: Professional Violinist (Amaniel Conservatory), Orchestra Member (NEC Boston, La LIRA).
